

BOSTON, Nov. 17, 2023 /-- Arkea Bio Corp. (ArkeaBio™)

**ArkeaBio™ Honored with Nomination for NEVYs *Emerging Climate Tech Company of the Year Award* from New England Venture Capital Association**

ArkeaBio™, a leading agricultural science company, is pleased to announce its nomination for the *Emerging Climate Tech Company of the Year Award*. Nominated by the New England Venture Capital Association (NEVCA) for the 11<sup>th</sup> Annual NEVY Awards, this recognition comes as a testament to their progress in developing innovative products and services to advance sustainable agriculture through the reduction of livestock methane emissions.

This year's NEVY Awards feature 75 nominees in the categories of Tech, Robotics, Climate Tech, Healthcare, Life Science, and MedTech. The *Peace, Love, NEVYs* theme of the Award Ceremony not only recognizes and celebrates top innovators, investors, and companies in New England, but also aims to celebrate the successful resilience and strength when these communities work together in collaboration, and not just independently.

"Our team of dedicated Molecular Biologists, Immunologists, and Animal Scientists work vigorously to develop and deploy tools enabling farmers to adapt to changing environmental and market conditions," said Colin South, ArkeaBio CEO. "We are honored to be nominated, highlighting our continued commitment to enable sustainable agricultural practices that not only benefit farmers, but also contribute to a healthier planet." The ArkeaBio team is grateful for this recognition, which not only underscores the valuable and globally significant nature of their work, it also celebrates their accomplishments over the last year.

ArkeaBio looks forward to the opportunity to celebrate alongside other industry leaders during the live in-person Awards Ceremony on December 7<sup>th</sup>, when all category winners will be announced. For the *Emerging Climate Tech Company of the Year Award*, ArkeaBio is joined by Boston Materials;

Electrified Thermal Solutions, Inc.; florrent; Nth Cycle; SparkCharge; VEIR, Inc.. Additional industry leaders include Boston Metal; Commonwealth Fusion Systems; Form Energy; LineVision as nominees for the *Powerhouse Climate Tech Company of the Year Award*. ArkeaBio congratulates each and every category nominee.

## **ABOUT ARKEABIO™**

ArkeaBio™ is an agricultural science company developing solutions targeted to reduce livestock methane emissions responsible for 6% of global GHG emissions that are safe, cost-effective, and realistic for large-scale execution using existing agronomic practices. With a record of success and a growing reputation in the industry, ArkeaBio has emerged as a leading player known for its cutting-edge solutions, groundbreaking research, and unwavering commitment to changing the sustainable agricultural landscape as we know it.
